**All Imagine the Possibilities day services suspended pursuant to  
State of Public Health Disaster Emergency Proclamation**

Effective 12:00 PM, March 17, 2020, all day services and any group service or activity with more than 10 served individuals and employees together are suspended pursuant to Governor Kim Reynolds proclamation of a State of Public Health Disaster Emergency. In keeping with the requirements of the order, these services and activities will remain suspended through Tuesday, March 31, 2020. If the timeframe or scope of this decision should change, we will issue additional notices accordingly.

Individuals served in all other programs provided by Imagine the Possibilities will continue to be supported as usual. We continue to develop and implement appropriate guidelines and processes for the protection of those we serve and our employees in response to the COVID-19 outbreak.

Specific questions related to service delivery should be directed to your primary point of contact for Imagine services. As always, we remain committed to the delivery of quality services and supports and appreciate your partnership, especially during these unprecedented times.
